IN CONGRESS.

The Senate Passes the Postoffice Appropriation.

The House Amuses Itself by Doing Practically Nothing.

World's Fair Naval Display Assuming Immense Proportions.

Two Minority Reports Presented on the Whiskey Trust Investigation—Alaska Fur-bearing Animals—Unappreciated Wit.

By Telegram to the Times.

WASHINGTON, March 2.—[By the Associated Press.] The Senate today passed the postoffice appropriation bill, which was taken up and passed and Mr. Culom made a statement as to the amount of the appropriation, showing that the department was practically self-supporting.

The Indian Appropriation Bill was then taken up. As amended it appropriates \$8,595,000 to pay the Cherokees for the lands in question, of which \$595,000 shall be payable immediately, and the remaining \$8,000,000 shall be payable in five equal annual installments, commencing the 4th of March, 1894, and ending on the 4th of March, 1898, the deferred payments to bear 4 per cent interest.

Numerous amendments were offered to various clauses of the bill, and most of them were agreed to. Finally the bill was reported back to the Senate from committee of the whole, and all the amendments were agreed to in bulk, except one, which requires officers of the army detailed as Indian agents to give the same bonds as civilian agents.

Mr. Cockrell demanded a vote upon the amendment, and Mr. Vilas opposed the amendment as an indirect method of defeating the law of last session, providing that army officers shall be assigned to duties as Indian agents.

The amendment was rejected. The bill then passed, and Mr. Hale moved to proceed to the consideration of the Deficiency Bill.

The Senate took a recess till 8 p. m., and on reassembling the reading of the Deficiency Bill was proceeded with. All amendments reported from the Committee on Appropriations were agreed to, and the bill then passed.

At 11 p. m. memorial services were held in respect to the memory of late Representative Craig. The Deficiency Bill at the close of these services the Senate at 1:30 o'clock adjourned.

House.—An unusually large audience in the galleries was the only evidence of the approaching end of the present Congress.

The House was waiting for the Senate to act on the appropriation bills, and for an hour did practically nothing. Finally it took up the President's veto of the Alabama Court Bill question.

After considerable debate and amid much confusion, the conference report on the Sundry Civil Bill was agreed to, 131 yeas, 118 nays. Mr. Holman demanded the previous question on non-concurring in the Senate amendments, which was not agreed to. Then Mr. Bailey came forward as a filibuster, and raised the point that there was no quorum on Mr. Holman's motion. Mr. Holman withdrew his demand. Before the matter was disposed of the hour of 8 o'clock had arrived—the hour appointed for the House to do tribute to the memory of the late Senator Kennan of West Virginia.

The Senate amendments to the postoffice appropriation were not concurred in, and the bill was sent to conference.

The conference report on the Legislative Appropriation Bill was agreed to. On unfinished business, a motion by Mr. Stump (Dem.) to suspend the rules in order to pass the Senate bill to facilitate the enforcement of the immigration and contract labor laws, was agreed to—93 yeas, 82 nays.

The woman is the widow of the late Prince Menzikov, one of the greatest of Boyards. He left a fortune of several million francs to his four children, making the widow trustee. Five years ago she married Dierne. Since then one of the children died under suspicious circumstances, and two others have disappeared. It is believed they have been foully dealt with in order that the Diernes might take their estate.

The court ordered the exhumation of the body of the child known to be dead, and search is being made for the bodies of the other two. The remaining daughter has been placed under the court's protection.

By Telegram to the Times.

Assembly.—The committee appointed to investigate the charges made by Railroad Commissioner Rea against Assemblyman Johnson of Santa Clara, that Johnson offered to sell Rea his vote on railroad commission legislation for \$100,000, reported today. The committee finds that Rea did not substantiate his charges, and merely brought them to intimidate Johnson and members of the Legislature. The majority report was made the special order for tomorrow afternoon.

A vote was taken on Mr. Godchaux's amendment, which does away with the Railroad Commission and makes the schedule of fares and freight a part of the Constitution. The Constitution requires that a two-thirds majority is necessary for its adoption. The vote resulted in 53 for and 24 against it, and two members absent on leave. The question now is whether the bill has passed or not, eight members were elected to the Assembly, the death of Mr. Price bringing the number of the members down to seventy-nine.

A Land Decision.

WASHINGTON, March 2.—Secretary Noble today rendered an important decision in the case of A. H. Dalton of the Bozeman (Mont.) land district against the Northern Pacific Railway Company, which overruled the celebrated Guilford-Miller decision in one important particular.

The Miller decision held that lands within the Yakima Indian reservation were not excepted from the grant to the Northern Pacific Company, and when the Indian title to such lands became extinguished the right thereto would inure to the railway company under its grant.

Today's decision, involving a portion of the Crow reservation, holds in effect that lands included within the technical Indian reservation at the date on which the reservation was established, is absolutely excepted from the grant, and in the event of the extinction of the Indian title they revert to the public domain.

IRISH HOME RULE.

Ulster Men Swear They Will Never Submit to Home Rule.

BELFAST, March 2.—[By Cable and Associated Press.] More than five thousand persons were present at the great Orange meeting here today.

Dr. Kane, who presided, said that Ulster was prepared to defend herself to the last against the proposals of the Home-rule Bill. Men of Ulster need not feel they would be alone in the fight for their liberties; they had the sympathies of Englishmen of all classes throughout the world. He had received letters from military and police officers in England and Ireland, and telegrams from Canada and Australia promising cooperation with the men of Ulster. If the latter resorted to arms to defend their liberties against the tyranny of their historic foes. Hundreds of thousands of Orangemen, he said, were ready to resist to the death the Home-rule Bill. William Johnson, M. P. for South Belfast, who called the meeting to order, concluded a violent speech by swearing on the Bible he would never submit to the laws of the Dublin Parliament. He then tore up a piece of paper and threw to the floor a copy of the Home-rule Bill, and the meeting adjourned.

A PECULIAR ACCIDENT.

Several Lives Lost as the Launching of a Bay City (Mich.) March 2.—[By the Associated Press.] Today F. W. Wheeler & Company launched the schooner Mary E. McLachlin, and during the proceedings an accident occurred, the exact results of which can not now be told.

The sudden descent of the schooner caused the steamer Forbes lying in the slip to career, and when she recovered the shock broke the rail and threw a mass of struggling people into the water. As soon as possible the work of rescue began and in five minutes some twenty people were taken from the water more or less seriously injured by water contact with the ice. Eyewitnesses of the accident are positive that there are more people under the ice. If any were drowned the current has carried the bodies out and recovery is impossible now. Three hats, whose owners could not be found, were recovered from the water.

The wildest rumors are in circulation, but it is believed that not more than two persons are drowned. Owing to the confusion it is impossible to learn their names.

THE COLLIS TRAIN ROBBER.

Officers Think They Have Him, but He Escapes.

SAN JOSE, March 2.—[By the Associated Press.] Sheriff Bollinger and posse left here today for the mountains to search for a man who is supposed to be John Sontag, one of the Collis train robbers, and who it is thought is near Stevens Creek, in the vicinity of Soda Lake.

The Sheriff received word yesterday that a man answering Sontag's description had been seen there this week. He was heavily armed and acted in a very suspicious manner. He told the parties with whom he stopped one night that his name was John Ryan and that he was going to New Almaden.

LATER.—DUTY RUCKER.

Anderson found the man's headquarters about noon today. They questioned him and the stranger said he was hunting and just killing time.

While talking the fellow kept the gun pointing at the deputy sheriff, but seemed so cool and collected that the deputies were fain to believe he was not the man they wanted. He finally left them, and went back into the brush.

The deputies reported to Sheriff Bollinger, and though a thorough search of the vicinity was made, he could not be found again. The fellow answers the description of Sontag, and the officers firmly believe they will get him tomorrow. The Sheriff is out in the morning with a large posse, and will camp in the mountains, if necessary, for a week. The whole country is aroused, and it is believed that the man, whoever he is, cannot get away.

THE MONTANA STRUGGLE.

Closing Scenes at the Last Ballot Taken.

Amid the Greatest Confusion the Legislature Adjourns Sine Die—The Governor Will Now Appoint a Senator.

By Telegram to the Times.

HELENA (Mont.), March 2.—[By the Associated Press.] Not even the opening of the famous Yale Lock Legislature, three years ago, equalled in excitement and dramatic interest the scene enacted at noon today, when the third legislative assembly met in joint session for a final ballot for a Senator in Congress to succeed Sanders.

The tremendous crowds of the past days had so weakened the walls of the building where the House met that it was deemed unsafe to further test its strength. Accordingly the joint session was held in the auditorium.

Called to Order.

The huge hall and galleries were packed when Lieut.-Gov. Bott called the joint session to order. Never was suppressed excitement and greedy expectation so marked in any public gathering. Rumors of bribery-giving filled the air, and the Clark men boldly claimed they had enough Republicans "pledged" to insure Clark's election on the first ballot.

"Traitor, Traitor."

As the roll was called breathless silence fell. The first Republican to break to Clark was Senator Hatch of Park county. No sooner had he voted than cries of "Traitor!" "Traitor!" "Bought up!" "Put him out!" etc., were hurled at him from the floor and galleries by the Republicans, while the Clark Democrats cheered wildly. With difficulty order was restored.

Bonner, a Dixon Democrat, next switched to Clark, while five more Republicans—Codo of Ferguson county, Lewis of Dawson, Graves and near of Silver Bow and Van Ness of Yellowstone—voted for Clark amid a crossfire of cheers and hisses. Bonner and Graves made speeches explaining their votes, and amid deaf silence the result of the ballot was announced as follows: Clark, 38; Mantle, 25; Dixon, 11; Carter, 1. As 38 yeas were necessary for a choice, the President declared there was no election.

UNPARLIAMENTARY LANGUAGE.

Then ensued a scene that baffles description. A dozen members sprang to their feet at once. The Chair recognized Senator Goddard, who moved that the joint session be dissolved sine die. Mr. Back, a Clark Democrat, made a fiery speech, which evoked a stormy reply from Mr. Mantle, a Republican, and Matthews, a Populist. Such epithets as "traitor" and "coward" were freely exchanged, while the galleries boiled over with hisses, and echoed with cheers. When the uproar was at its height, and but little was needed to provoke personal encounters, Lieut.-Gov. Bottkin succeeded in restoring order, and put the question of adjournment.

Adjourned.

It was carried by a vote of 37 to 32, the Dixon Democrats joining the Republicans to prevent Clark's last hope of another ballot. Then the vast audience rose en masse and responded to calls for cheers, which the Republicans and Dixon men kept up for half an hour.

The Legislature adjourns sine die tonight. The appointment of a Senator by Gov. Rickard will be made probably next week. It seems to lie between Sanders, Mantle, Carter and some unknown dark horse. The chances apparently are in Sanders's favor.

A GAMEY FIGHT.

After Eighty-two Rounds It Was Drawn.

SIoux FALLS (S. D.), March 2.—[By the Associated Press.] The Daly-O'Donnell fight resulted in a draw after eighty-two rounds had been fought.

The contest took place under a tent just across the line of Iowa. It began at 9 o'clock this morning, and was not finished until 7 o'clock. Daly had the best of the fight from the start, but his antagonist was game, and Daly found it impossible to knock him out. O'Donnell broke his hand in the twenty-fourth round, after which he simply made a defensive fight. The purse of \$8000 was divided.

A Compliment to Miss Kelso.

Miss Kelso, of the public library, has received a letter from Miss Elizabeth Young, of the Comparative Library Exhibits Committee of the World's Fair, asking that she read a paper before the Convention of Library Associations to be held there. Miss Kelso has accepted the invitation and has chosen as the subject of her article for that occasion, "The Economic Features of Public Libraries." In it she will call attention to the fact that \$14,000 was recently paid for an old manuscript of Columbus, the same for the Boston public library. She will give a list of paying such large sums out of public funds for the possession of mere relics, such funds be used for the purchase of more books and for other work which will be of more direct benefit to the public.

The Missing Narcotic.

New York, March 2.—The British steamer Mohawk, from London, which arrived in quarantine at 7 o'clock this evening, reports that she was nothing of the steamer Narcotic, which was thought to have been sighted off Fire Island about that hour. Increasing anxiety is felt in shipping circles for the latter vessel, which has now been out from Liverpool twenty days.

The Electric Association.

ST. LOUIS, March 2.—The St. Louis National Electric Association proceedings began this morning with reading and discussing some technical papers, and then went into executive session to hear reports and elect officers.

## THE COURTS.

## Young Claude Hill Convicted of Embezzlement.

Only Twenty Minutes for the Jury to Arrive at a Verdict.

## An Interesting Story Developed in a Trial Before Judge Van Dyke.

Two Divorces Granted and Two New Suits Filed—An Old Woman Adjudged Insane—Suit on a Promissory Note.

The trial of the Claude L. Hill embezzlement case was concluded in Department One yesterday afternoon, the defendant being convicted in short order.

During the morning session A. M. Stephens, J. A. Anderson, Sr., Samuel Mansfield and H. C. Clements were called upon to testify to the previous good character borne by the defendant. Hill was called to stand for cross-examination. The defense then rested its case, and after W. C. Thiele had been examined in rebuttal for the prosecution, both sides closed.

The matter was then argued by counsel, and shortly after 3 o'clock it was finally submitted to the jury, that body returning a verdict of "guilty as charged," after a deliberation of twenty minutes' duration; whereupon the Court remanded the defendant, with directions to appear for sentence on Monday next.

There is another charge of embezzlement pending against Hill.

## TELL DIFFERENT STORIES.

The trial of the case of John Brittle vs. J. F. Wells, an action to recover \$400.00, alleged to be due upon a promissory note, was commenced before Judge Van Dyke and a jury in Department Four yesterday.

The plaintiff in his complaint simply sets forth the fact that on November 30, 1891, defendant executed a note for \$400, payable at eighty-two days after date, and bearing interest at 10 per cent. per annum, and that it has never been paid.

The defendant, however, in his answer and cross-complaint, relates a somewhat different and more interesting story of the transaction. He alleges that on December 18, 1890, he and Brittle entered into an agreement whereby he (Wells) was to lease the terms of which the plaintiff agreed to lease the "Old Summer ranch" of forty acres of land, about midway between San Bernardino and Redlands, for a stated term and sum, it being further agreed that defendant was to receive half of the crops, and that the other half was to be paid to the plaintiff.

On October 30, 1891, plaintiff represented that, in addition to the other crops, he had raised \$400 worth of corn upon the ranch, and offered to sell his share of the products to Wells for \$700, of which sum \$300 was to be paid down and a note given for the balance. Defendant accepted the offer, paid the money and gave the note, but subsequently found that he had been duped. He then charged Brittle with having surreptitiously sold the water which he (Wells) supplied for use on the ranch, and for all these things he seeks to recover damages in the sum of \$1300. The case will be resumed this morning.

## SUIT TO RECOVER MONEY.

The case of J. Samsonet vs. George Le Mesnager and Pierre Darancette, an action to recover the sum of \$500, which plaintiff claimed to have placed in defendants' hands for investment before he left for Europe in September, 1888, and for which they failed to account, came up for trial before Judge Clark in Department Two yesterday, but was not concluded, and went over until today.

The defendant, Darancette, admits the receipt of the \$500, but claims that he merely accepted it and acted as plaintiff's agent, as an accommodation to a friend. He alleges that he loaned the money, together with \$1500 of his own, to one F. Couture, an honest and well-to-do merchant, who, unfortunately, became involved in business difficulties, and went into insolvency. He says, however, that some day he expects to be refunded by Couture, and that he will then, of course, remit the \$500 to his friend in France. Meanwhile, he pleads the statute of limitations.

## ADVANCED INSANE.

Mrs. Elizabeth Fox, a native of New York, 70 years of age, was duly adjudged insane, and committed to the State Asylum at Napa by Judge Clark yesterday, in accordance with the recommendation of Drs. Cowles and Wernick, the examining commissioners.

## DIVORCE BUSINESS.

Epraim Valenzuela was granted a decree by Judge Smith yesterday divorcing him from Agripina Lopez Valenzuela upon the ground of adultery; and Beatriz R. Howard was granted a decree of divorce, in the same court, from Will H. Howard, upon the ground of wilful desertion. Both defendants had allowed the matter to go by default.

## FIXED THIRTY DOLLARS.

In the Township Court yesterday morning the case against Ralph Rogers of Garvanza, charged with having exhibited a deadly weapon to Charles Peterson and Charles Jan, recently, in an angry and threatening manner, came up for trial before Justice McLean of Rosedale. Justice Bartholomew having retired in his favor from the bench, temporarily, on account of having already tried a case in which the same parties were interested. In spite of the fact that the defendant was not present, the Rosedale magistrate ordered the trial proceeded with, and, after hearing the testimony for the prosecution, convicted the defendant and imposed a fine of \$30.

Shortly after the Rogers presented himself at the bar and announced himself as ready for trial, when, to his astonishment, he was informed that the case had already been disposed of, and that there was a little account of \$30 outstanding against him. The Garvanza capitalist was somewhat nonplussed at first, but soon recovered his composure, and, after a heated debate, the Court granted the defendant a new trial and vacated the judgment already entered against him.

## Court Notes.

Judge Smith yesterday morning arraigned James Turner and Peter Hansen upon the charge of having resisted

an officer, and Francesca Mandibles and Mary Tillman upon the charge of burglary, and allowed all four defendants until Monday next in which to plead.

The arraignment of Jesse G. Maris, charged with having assaulted D. C. Lewis with intent to commit murder, on February 20 last, and José Garcia, charged with rape, were deferred by Judge Smith yesterday morning until Monday next.

Judge Clark yesterday morning granted the application of Mrs. Ann Ururah Rosenfeld to leave to become a sole trader. The petitioner alleged that she desires to keep a boarding and lodging-house, in order to support herself and six children, her husband, although idle and dissolute, having given her no grounds upon which she might apply for divorce.

The trial of the suit instituted by P. H. Lemmert against M. M. Morrison et al., was resumed before Judge Wade and a jury in Department Three yesterday, but the matter was not concluded, and will be taken up again today.

Pursuant to a stipulation filed therein, Judge Van Dyke yesterday morning vacated his order overruling the demurrer in the damage suit of Mrs. Kate Brown vs. the Temple Street Cable Railway Company, and the case was replaced on the calendar for Monday.

No claims having been presented in the matter of the insolvency of C. G. Ramsdell, Judge Shaw, upon motion of counsel for the petitioner, ordered the proceedings dismissed yesterday morning.

Judge Shaw tried the case of Nathan S. Porter vs. R. A. Locke et al., an action to cancel a tax deed to the north half of farm lot 110 of the American Colony tract at Long Beach, which had been assessed to unknown owners and sold for delinquent taxes, yesterday morning, and ordered judgment for the plaintiff, each party, however, being required to pay his own costs.

## THE OUTLOOK DISCOURAGING.

Arizona Cattle Men in a Sad Way—Herd.

T. A. Jones & Nogales, Ariz., reports the cattle men of Southern Arizona as being very much discouraged.

"Cattle are dying off by the hundreds in that country," said Mr. Jones.

"And if the stock-growers get through the winter with one-third their stock they will do well. Even though they pull through the winter they will do so only to face the fact that no provender awaits their starved herds, as there has been no rain in amount to anything and grass won't grow without some moisture, while the browse is all eaten clean."

"Indeed, the position of the cattle-growers of Southern Arizona is an uncomfortable one, for, with debts accumulating, herds depleted, and the range bare of vegetation, the future is quite a blank."

## FOOTBALL.

The Coming Match Between the Chaffey and the Olives.

Both the Chaffey College and Olive

football teams have been practicing

diligently for the match game which

takes place Saturday afternoon at Athletic Park. The Olive boys have been

at work down at the park every afternoon for some weeks, and they are putting

up a strong game. Their team has been strengthened considerably by the

addition of Dillon, who will play right end. They are especially strong behind

the line, and their half backs, Wright and Manning, have no superiors

in Southern California. Their line is also very strong. Hoffa, McKeeney and

Lockhart making a powerful center, and the Chaffey boys will find it very

difficult to get through. They are thoroughly drilled in their signals, and

work together for every point, which will show a marked contrast with the

game seen here last Christmas day. They play a team game strictly, and understand

thoroughly that individual playing counts for nothing in a good game of football.

While the Olives put up a very strong and scientific game, they will come far

short of having a walkover. The Chaffey College boys have been working

equally hard. They have been under the instruction of a coach formerly of

the University of Michigan. They have it in for the Olives and expect to win. It is a hard matter at present to

pick the winning team. The chances of both are equally good, as the last game between them resulted in a tie

score of 4 to 4.

It will be an interesting and exciting contest and all admirers of football will be on hand to witness it.

## A Neighborhood Row.

David Wilkinson, a negro, living in the west end of town, was fined \$6 for

battering D. A. Pratt, a neighbor, who took up some of Wilkinson's horses for

trespassing on his premises. The case seems to be a very disagreeable neighborhood

quarrel, as it was not clearly shown that the animals had trespassed,

but that Pratt took the horses up through petty spite, when Wilkinson, when

recovering them by force, pummeled his over-officious neighbor.

Wilkinson, who heard of a warrant having been issued, surrendered himself to the Court.

This seems not to be the last of the affair, as Wilkinson swore to a complaint

charging Pratt with having taken Wilkinson's son from a horse while herding the offending cattle and

severely drubbed the lad. This case was continued as Pratt had disappeared.

## Let Off With Light Fines.

Cases against a quartette of violators of the hitching ordinance gathered in at

different times since Wednesday—C. Boge, S. Alexander, Wing Lee and Ju

Sam—were disposed of yesterday by Justice Austin, who gave the first three

who appeared a lecture and a fine of \$1 each, while the \$5 surety put up by Ju

Sam was declared forfeited, owing to non-appearance.

## Pleaded Guilty to Petty Larceny.

James Peyton, the bicycle thief, who was to have appeared before Justice

Bartholomew in answer to a charge of grand larceny, yesterday, was allowed

to plead guilty to an amended charge of petty larceny before Justice Austin,

who will pass sentence upon the culprit tomorrow afternoon at 2 o'clock.

# THE WORLD OF THE FUTURE.

PASADENA.

All the People are Coming This Way.

Expressmen and Hackmen on their Mule-Backs. The Hitting Ordinance—People Coming and Going—Notes and Personalities.

A visit to the various popular resorts in close proximity to Pasadena discloses the fact that not only is this city crowded to overflowing with tourists and visitors, but that a like state of affairs exists for miles around.

A few days ago a visit was paid to Hotel San Gabriel, and a conversation with mine host Warner it was discovered that every room in the house is occupied, and that most of the hotel attaches have been compelled to seek quarters elsewhere to make room for the heavy influx of guests.

Up on the summit of Mt. Wilson it is the same thing over again. C. S. Martin, who has allied his camp interests on the summit with those of A. G. Strain, told the reporter yesterday that numerous new tents and frame buildings are being erected on their property to meet the increasing demands of the mountain travel, which has kept up surprisingly well all of this winter. In Pasadena, it is a different matter for tourists to find accommodations, and this in fact of the fact that the hotel and boarding house facilities have been nearly doubled during the past year. All of which speaks well for the growing attractions of this section of country and augurs of nothing but prosperity for the Hotel Green when it will open to the public next winter with its present capacity doubled and for the Echo Mountain House, which Prof. Lowe proposes to have in running order half way up the sierra by next winter, as well as for the numerous other hostilities that have met with such a liberal patronage this winter.

**THAT HITCHING ORDNANCE.**  
Appropos of the row which the proposed strict enforcement of the ordinance prohibiting the public hackmen and expressmen from soliciting business on the business thoroughfares of town has kicked up, it is suggested that the ordinance prohibiting anyone leaving a vehicle unattended on the main streets be likewise enforced. This ordinance is daily violated by some of our prominent citizens, as well as visitors from the rural districts and this is the cause of nine-tenths of the runaways of town. Let a few offenders be brought before the bar of justice and fined liberally and the dangerous habit of leaving vehicles unattended will soon cease to be practiced.

In reply to a correspondent, who wishes to be enlightened on the subject, it is stated that the ordinance prohibiting anyone leaving a vehicle unattended on the main streets is daily violated by some of our prominent citizens, as well as visitors from the rural districts and this is the cause of nine-tenths of the runaways of town. Let a few offenders be brought before the bar of justice and fined liberally and the dangerous habit of leaving vehicles unattended will soon cease to be practiced.

The Ladies' Central Committee of the Young Men's Christian Association will hold a business meeting on Friday afternoon at 2:30, in the reading-room of the association. A large attendance of ladies is desired.

Rev. Florence Kollock, associate pastor of the Universalist Church, will be at home to her friends and parishioners the afternoon of the first Monday of each month, at the residence of Frank Polley, No. 271 South Moline avenue.

Letters received from W. E. Cooley state that he has entered upon the duties of the office at San Francisco tendered him by Gov. Markham, and is well pleased with his new surroundings. The prevailing climate, which he says is dreadful.

The A.M.E. Zion people will organize a church in Pasadena on Sunday afternoon, at 8 o'clock, at the corner of Fair Oaks avenue and Second street. The presiding elder, Rev. George E. Jackson, will preach, assisted by Rev. Mr. Bynum.

Another important real estate transfer was effected Thursday in the sale, by Kenneth Howard, a well-known Arlington Heights property, on Arlington drive, near Pasadena avenue, to C. B. Sawyer of Chicago. The property was owned by the Security Loan and Trust Company, and the price paid was \$10,000. Thus Chicago continues to be depopulated in favor of Pasadena.

The cases of the hackmen and expressmen who have been held to answer to the charge of violating the ordinance prohibiting their teams from standing on the business streets, will come up before Recorder Rose this morning. The defendants propose to fight it out, nearly all of them having already engaged legal talent. The battle promises to be a warm one.

From the rapid manner in which E. C. Webster has been circulating himself through the southern section of the State during the past few days, it is to be surmised that something important is claiming his attention, and surprising developments may be expected at any time. Mr. Webster has absented himself from Pasadena for several days and his friends believe he is in the land.

Already much public interest is being manifested in the coming of Bill Nye and A. P. Burbank, who are to spring into public prominence in Pasadena next Tuesday evening at the opera house. The company under the auspices of Throp University, which fact, in connection with the prominence of the speakers, will, no doubt, command the attention of the entire city.

The large audience that assembled at the opera house Wednesday night to see John Dillon in *A Model Husband*, emphasizes the truth of the statement frequently made in these columns that a good show never goes begging in Pasadena. The lower boxes were occupied and the parquet, dress-circle and gallery were completely filled. The performance seemed to prove agreeable to all present, and there was a constant round of laughter and applause during all of the acts. The orchestra was well maintained and the recipient of a large bouquet of beautiful roses.

Block cars only, and give trans-  
fers to all lines up to 5:30 p. m.; after  
that time the cars going to the South-  
ern Pacific depot will receive transfers  
from all lines, and issue transfers to  
Santa Fe, Maple avenue and Vernon

tion Company had been signed. It is  
thought that the interior railroad will  
make heavy reductions on traffic in  
order to effectually compete with the  
new companies.

Some interesting figures have just  
been made public by the Santa Fe com-  
pany in relation to vegetable shipments  
from Southern California over their  
lines. Making the interior of the month  
of January of last year, and the cor-  
responding month of this year, the freight  
bills show an increase of vegetable  
shipments during the latter of 1,891,  
300 pounds, or an increase of 100 per  
cent, over those of the same period of  
last year. Making the Santa Fe whole,  
it is estimated that 7000 carloads of  
oranges will be carried during the season  
to Eastern markets.

On March 1 the Santa Fe inaugurated  
a new fast freight line service from  
Eastern points to California terminals.  
The new service will be of considerable  
benefit and advantage to shippers of  
open freight or less than carload ship-  
ments. Two large cars will leave Chi-  
cago every day in the week containing  
less than carload shipments of freight  
for California points. These cars will  
only be stopped at Kansas City and  
Burton, Kan., to take on freight, run-  
ning directly through without further  
stop until San Francisco is reached.  
The time from New York and Eastern  
cities will be made regularly in eleven  
or twelve days, and from Chicago, St.  
Louis and Western points in eight or  
nine days.

**On a Sad Mission.**

Alaska Commercial Company of San

law, Dr. Lillenthal, came to Los An-  
geles yesterday on a sad mission, hav-  
ing been summoned by a telegram an-  
nouncing the serious illness of Dr.  
Lillenthal's brother, who died at Pas-  
adena Wednesday night. Deceased was  
a son-in-law of Mr. Gerstle. The party  
returns to San Francisco by this after-  
noon's train in charge of the remains.

LIBRARY CLUB.

**FICTION AS AN EDUCATIONAL FACTOR DISCUSSED**  
at San Diego.

The Southern California Library Club  
held its regular monthly meeting last  
evening in the ladies' reading-room of  
the Public Library.  
The meeting resolved itself into a  
rather informal discussion of fiction as  
an educational factor. Miss Lena B.  
Fenner read a paper on the question.  
In it she dwelt upon the injurious effects  
produced by the reading of too much  
of this class of literature. The habitual  
novel reader, she said, was what might  
be termed a literary drunkard. If  
the object of the reading of fiction be  
to amuse, then it is a luxury, and such  
reading is not to be recommended. It  
should be indulged in by the public in its  
libraries. Greater limitations on the read-  
ing of the younger generation than those  
that now exist should be brought about.

A paper bearing on the other side of  
the question was read by Miss  
Anna C. Murphy. She argued that the  
story reader, in one way and another,  
had embraced almost the whole field of  
philosophy. The old style of literature  
had gone out and tastes were better  
cultivated than formerly. There was  
much to be learned in this kind of read-  
ing that either could not or would not  
be taught otherwise.

The reading of the latter paper was  
followed by remarks by a number of the  
young ladies present, and nearly all of  
them agreed in the belief that if fic-  
tion were to be removed from the  
libraries, the result would be a serious  
loss to the public. It was decided that  
it is a desirable and educational fea-  
ture of private and public collections  
of books.

**Taught a Lesson.**  
Ralph Rogers played a losing hand in  
Justice Seaman's court yesterday in  
the matter of the arrest through him of  
J. G. Stoiberg, a dairyman of Garvan-  
za, who, in the complaint sworn to  
by Rogers, was charged with malicious  
mischievous. The specific case cited  
was the driving of eighty-three head of  
milk cows to pasture through a street  
Rogers had appropriated and sown to  
barley.

Rogers was the father of the street,  
which was created during the boom in  
planning a subdivision or addition  
to Garvanza, but which was not much  
used, owing to the non-disposal of the  
property platted.  
The case was an interesting one, in  
that it discovered to Mr. Rogers that  
which he should have known—that a  
street is a public highway, and must  
remain such until vacated through the  
source by which the highway was cre-  
ated. The case against the dairyman  
was dismissed.

**Temperance Temple Debt.**  
The ladies engaged in the work of  
raising a fund to clear the debt on the  
Temperance Temple, have met with  
much encouragement of late, and are  
now able to announce that the incum-  
brance on their building is being rapidly  
decreased. Their latest plan, to  
find thirty persons who will pledge  
\$100 each, payable in two or three  
years, with interest, is proving a suc-  
cess. Twenty persons have already  
subscribed the desired amounts and but  
ten such subscriptions are left to be  
secured. They hope that the remaining  
number will soon be forthcoming to se-  
cure the balance of the payments.

**THE BLUE BOOK.**  
In the larger eastern cities a Blue Book  
has always been deemed an essential adjunct  
to the literature of every prominent family,  
and the absence of a Blue Book in Los An-  
geles has been noticed and commented upon  
by visitors from the East as well as by  
many prominent people here.  
The demand for a work of this kind has  
become so marked that the publishing firm  
of Maxwell, Ludlow & Willcomb have de-  
cided to issue "The Blue Book of Los An-  
geles, Season 1893-94," and will com-  
mence work on the same tomorrow.  
It will be the fashionable private address  
directory of the prominent people of Los  
Angeles, Pasadena, and about a dozen of  
the principal towns from Santa Barbara to  
San Diego, and will give the names, resi-  
dences and reception days of several hun-  
dred leading society people.  
It will also contain a list of the social or-  
ganizations of the city, together with the  
names of the officers and members of each.  
There will also be inserted a list of the  
leading residents of Los Angeles county, be-  
ing the names and address of a citizens' who  
are locally regarded as being the most promi-  
nent in their respective vocations, together  
with a list of the millionaires of Southern  
California and those whose wealth exceeds  
\$100,000. A list of the members of the  
society of leaders, attorneys, physicians,  
educators and divines.  
The publishers do not assume the respon-  
sibility of selecting the names to grace the  
pages of the book, but have selected a com-  
mittee of competent society leaders to pass  
upon a list of names to be submitted to  
them by the publishers for their approval.  
The work is to be done in blue gold on  
enamel paper, and bound in blue kid em-  
bossed in gold. Typographically it will  
be the most elegant and artistic book ever  
printed in California.
